

**BLOCKCHAIN INTERNATIONAL  
CORPORATE REGISTRY AUTHORITY**

**DOMAIN NAME: tom.cruise**

**Owner Address: 0x53bD48B7e789a0831FC454C47554b63788d05F96**

**Client Guide: Your Blockchain Domain Certificate Package**

Congratulations — your Web3 Domain is now officially registered under the exclusive jurisdiction of the **Blockchain International Corporate Registry Authority** and the **World Arbitration Court (WAC)** and permanently protected on the blockchain. With your registration, you receive a **3-part legal certificate package** that ensures your domain ownership is sovereign, enforceable, and globally recognized.

**1. Blockchain Domain Sovereignty Certificate**

**What it is:**

This is your **title deed** for your Web3 domain. It confirms that your domain name has been minted on the Ethereum and Polygon blockchain networks and that it belongs exclusively to you.

**Why it matters:**

- Establishes **exclusive ownership rights**.
- Places your domain under the **jurisdiction of the World Arbitration Court (WAC)**.
- Guarantees protection against seizure, censorship, or interference.

“This certificate is only valid if the Owner Address on-chain matches the claimed holder. Downloaded copies without blockchain verification are not proof of ownership.”

**Issued by the Blockchain International Corporate Registry Authority on this 12 day of October in the year 2025.**

## 2. Blockchain Apostille Certificate

### What it is:

This is your **authentication layer**. It proves that your Sovereignty Certificate is **immutable and blockchain-verified**.

### Why it matters:

- Ensures your certificate is **legally recognized in 172+ nations**.
  - References international law: the **1958 UN Convention, UNCITRAL Model Law, and the Hague Conventions**.
  - Confirms your domain registration is **permanent, tamper-proof, and verifiable on-chain**.
- 

## 3. Blockchain Notary Certificate

### What it is:

This is your **verification seal**. It notarizes your domain registration under WAC authority, binding it irrevocably to international arbitration law.

### Why it matters:

- Provides an additional layer of **legal enforceability in 172+ nations**.
  - Confirms your certificate package has been independently notarized.
  - Ensures your domain cannot be challenged in national courts or overridden by governments.
- 

## Why This Matters for You

Owning a Web3 Domain from **BlockchainTrust Domains™** gives you:

- **Sovereign legal protection** – exclusive WAC jurisdiction.
- **Global enforceability** – recognition under international treaties.
- **Permanent blockchain record** – your ownership is immutable.
- **Censorship resistance & security** – your domain cannot be seized, revoked, or regulated away.

Your certificate package is more than a document — it is your **global digital title deed** for the decentralized internet.
