

Office of the Registrar - Web4 Domain Authority

Not Just a Domain. A Family Treasury.

This certifies that the digital property known as:

DOMAIN NAME: tom.cruise

Owner Address: 0x4bE8D33B1405220aA529226489370C48a7b8DB12

In the emerging Web4 landscape, many registries advertise: "Pay once, own it forever."

While this slogan may sound attractive, it conceals a fundamental weakness: **abandoned titles with no legal force, no protection, and no stewardship.**

A **Master Family TLD** is different. It is not merely a digital vanity domain — it is a **dynasty-level asset**. Each Master Family TLD doubles as:

A Wallet: A live financial treasury node for payments, RWA settlement, and inheritance transfers.

A Legal Shield: Backed by Blockchain Apostille, Notary, and Sovereignty Certificates, enforceable in 173+ nations under the World Arbitration Court jurisdiction.

A Dynasty Title Deed: Permanently recognized under the Blockchain International Corporate Registry Authority, immune to seizure, censorship, or regulatory override.

An Enforcement Asset: Collateralizable and lienable under WTAA Clause 249, admissible in global arbitration enforcement.

This is why **an annual subscription is essential**. It is **not rent**. It is the **insurance premium of dynastic sovereignty** — funding perpetual authentication, legal enforceability, and wallet infrastructure upkeep across generations.

Issued by the Blockchain International Corporate Registry Authority on this 12 day of October in the year 2025.

Domain Token Number:

2117

Verify at: <https://domains.blockchaintrust.pro>

Domain Type:

Active/Date: 12/10/2025

Document Type:

Original / Public

Document No:

BICRAD.2025.1210.2117

At only **\$20/year**, the value is unmatched:

Families gain a perpetual legal and financial identity.

Dynasties gain a treasury protected under international law.

Investors gain enforceable collateral recognized by the World Arbitration Court.

Thus, while ordinary domains can be purchased and forgotten, **Master Family TLDs live, breathe, and endure — as sovereign digital treasuries for the families they protect.**

The Difference Between “Forever Domains” and Master Family TLD & Wallets

Forever Domains (ENS / Handshake / Others):

- *Slogan:* “Pay once, own forever.”
- Static registration with no legal standing.
- No protection from seizure, censorship, or fraud.
- No enforcement under international law.
- No financial infrastructure — only a vanity name.
- Abandoned land titles with no stewardship.

Master Family TLD & Wallets (BlockchainTrust):

- **A Dynasty Title Deed** — permanently registered under World Arbitration Court & BICRA jurisdiction, enforceable in 172+ nations.
 - **A Wallet** — every TLD doubles as a financial treasury node for payments, RWAs, and inheritance flows.
 - **A Legal Shield** — covered by Apostille + Notary + Sovereignty Certificates
 - **An Enforcement Asset** — collateralizable and lienable under WTAA Clause 249.
 - **Active Stewardship** — annual subscription ensures your dynasty family asset is kept alive, authenticated, and protected.
-

The Real Value of \$20/year

- Not rent.
- Not a renewal tax.

It is the **annual dynastic insurance premium** for:

- Global arbitration enforceability
- Wallet infrastructure upkeep
- Multi-generational trust continuity

\$20/year is not peanuts — it's the price of global dynastic family sovereignty.

REAL WORLD ASSET (RWA) RECOGNITION AND BALANCE SHEET TREATMENT

The **BLOCKCHAIN FAMILY TRUST PROTOCOL™** transforms family trusts from fragile, private legal documents into **auditable financial instruments** recognized as **intangible Real World Assets (RWAs)**. This shift allows family vaults to be valued, tokenized, and formally entered into CPA-certified balance sheets, elevating families and dynasties to financial parity with corporations and sovereign institutions.

Trust Vaults as RWAs

- Every **Family Root Vault (.lastname)** is recorded as an intangible RWA.
 - Assets deposited in the vault (cryptocurrencies, tokenized equities, real estate, IP) are aggregated under the trust contract.
 - The vault itself becomes a **sovereign financial entity** with measurable, auditable value.
-

CPA-Audited Valuation

Trust vaults are recognized in **auditor's reports** as balance-sheet entries.

Auditors apply **conservative fair market value models** for:

- On-chain digital assets.
- Tokenized off-chain assets.
- Heritage-bound assets (names, crests, symbolic sovereignty).

This creates the first **blend of financial + cultural assets** recognized in one framework.

Balance Sheet Treatment

Trust vaults can be entered as:

- **Intangible Assets** → heritage-based sovereignty anchors (Root Crest NFTs, FAMILY-TLDs).
- **Financial Assets** → tokenized real estate, equities, private funds.
- **Enforcement Assets** → prepaid balances in JusticeWallet™ reserved for dispute resolution.

The protocol allows trust vaults to appear as **line items** in consolidated family, corporate, or sovereign balance sheets.

Revenue & Monetization

Families can generate recurring income from their vaults through:

- **Subdomain issuance** (firstname.lastname).
- **Crest licensing** for family or institutional use.
- **Inheritance services** (automated triggers, custodial automation).
- **Cross-vault linkages** (marriage alliances).

Trust vaults shift from being **static legal containers** into **dynamic profit centers**.

Institutional Recognition

- Banks, family offices, and sovereign funds can integrate trust vaults into **RWA-backed lending and securitization frameworks**.
- Vaults can be pledged as **collateral for financing**, similar to intellectual property portfolios.
- This elevates family trusts to **first-class financial assets** in capital markets.

Civilizational Shift

For the first time in history, family heritage (names + crests) and wealth are recognized together as **auditable sovereign assets**.

This transforms the **family unit into a financial sovereign**, capable of reporting trust assets alongside corporations and states.

Creates an **entirely new asset class: Heritage-Backed Real World Assets (HB-RWAs)**.

Jurisdiction & Legal Authority

This Blockchain Domain Certificate is governed and enforceable under:

- The 1958 UN Convention on the Recognition and Enforcement of Foreign Arbitral Awards (New York Convention)
- UNCITRAL Model Law on International Commercial Arbitration
- The Hague Convention on Recognition and Enforcement of Foreign Judgments
- The Hague Convention on the Law Applicable to Trusts (1985)
- The Vienna Convention on the Law of Treaties (1969)

By virtue of these treaties and conventions, this Blockchain Domain is recognized in **172+ nations**, with permanent exemption from state court jurisdiction, regulatory oversight, and taxation enforcement.

Enforcement Clause

All disputes, claims, or legal proceedings related to **tom.cruise** shall be resolved exclusively by the World Arbitration Court.

Failure by any party, institution, or government to comply with WAC rulings shall result in:

- Immediate blacklisting from Web4 banking and financial frameworks
 - Freezing of associated blockchain assets
 - Exclusion from BICRA-recognized trust and domain registries
-

Registered in the Blockchain International Corporate Registry, under Domain Token ID No. 2117 and Document No. BICRAD.2025.1210.2117, which can be verified at <https://domains.blockchaintrust.pro>

Certification & Execution

This Blockchain Domain Certificate is issued by the **Blockchain International Corporate Registry Authority** and permanently recognized under the **World Arbitration Court's** jurisdiction.

Executed on the 12 day of October, 2025 at the Blockchain International e-Commerce Domain Registry.

The Original Creator is known to me, Registrar.

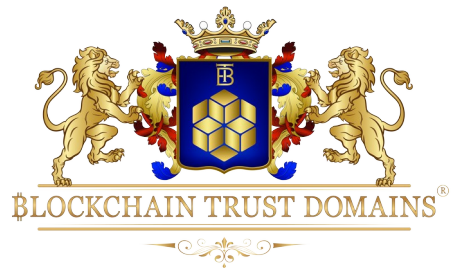

THIS WEB4 DOMAIN REGISTRATION, has been executed at the office of the **e-Commerce Web4 Domain Registry** of the Blockchain International Corporate Registry Authority, on the day and year mentioned in the heading in this **Blockchain Domain Sovereignty Certificate**.

The contents of this Certificate were stated and explained in substance to the Original Creator. The Original Creator then declared to be well informed on and to agree with the contents of this Blockchain Domain and not to care for a reading out in full.

Immediately after partial reading, the Original Creator and I, Yanelly Martinez, Blockchain Corporate & Domain Registrar, signed this **Blockchain Domain Sovereignty Certificate** and registered it in **the Blockchain International Corporate Domain Registry**, and on the Blockchain under Transaction Hash No: 0xcf4350422b81826469fdc1b8f19b0e678321bc8a7d09b577f38c0d2ae69d1137 under an irrevocable Blockchain Web4 Domain under Domain Token ID No. 2117 and Document No. BICRAD.2025.1210.2117, which can be verified at <https://domains.blockchaintrust.pro>

This decentralized and irrevocable Blockchain Domain is permanently governed under blockchain arbitration and cannot be subjected to any legislative, judicial, or regulatory amendments outside the scope of World Arbitration Court jurisdiction.
